

Thank You

Caltrans District 2 would like to thank the traveling public for their patience during the busy 2012 construction season. Your understanding and cooperation with the delays and lane closures during the summer work is very much appreciated.

As we enter the winter season, most projects currently in construction will go into “winter suspension” with minimal delays to motorists. Some projects will begin again as the weather improves, around March or April.

We wish everyone safe travels this winter and best wishes for the New Year!
